

Louisville Boosters to Visit Mt. Sterling

Representatives of Louisville's 1,200 wholesale houses are planning to visit Mt. Sterling on their big Cumberland Mountain Trade Excursion of June 7 to 11. They will make the trip on their own special train and will have as their guest General Charles P. Summerall, who commanded the world famous First Division in France during the great war and who is now stationed at Camp Taylor. A military band will accompany the boosters and a number of interesting speakers will be aboard the train, which is scheduled to arrive in Mt. Sterling June 10 at 6:30 A. M., remaining here two hours. It is expected a tremendous crowd will be on hand to greet our visitors from the "Falls City." Mayor W. R. McKee has appointed Attorney W. B. White to make the address of welcome.

City Clerk Resigns

At the last meeting of the city council Clerk H. B. Ringo offered his resignation, asking that same be granted him on account of pressing business. His resignation was accepted and Mrs. Mary C. Ayres was elected to fill out his unexpired term.

MARKET PLACE MOVED

The Market Place, which has been occupying the Reid Rogers building on Court street, has been moved to the Howell building on South Maysville street. Manager Clayton Howell announces a big sale to be put on within the next few weeks and preparations are now being made for it.

Asks Increase In Water Rates

Attorney Laurent and L. W. McClelland, of Louisville, representing the Kentucky Utilities Company, appeared before the city council at the regular meeting Tuesday night and asked that their franchise be amended, granting an increase of 50 per cent. in the water rates here. Attorney Laurent presented figures, showing that the revenue received from the local plant is not sufficient to cover the increase in the cost of coal and labor alone. The city fathers did not see fit to grant this request, voting down the resolution 5 to 3. The present franchise holds to 1932. The majority of the council seem to feel that 50 per cent. increase is an exorbitant raise in the water rates.

LEADING CITIZENS ASK FOR MEETING ON BOND ISSUE

Fiscal Court Asked to Present Reasons, If Reasons There Be, Why Bond Issue Should Not Be Authorized

From the beginning The Advocate and all those who have been in favor of the bond issue, as suggested by the Fiscal Court, have held to the position that if it could be shown that such a policy was not for the best interests of Montgomery County, then they would as good citizens desire to join in opposing the proposed measure for the relief of Montgomery County's pressing road problem.

The Advocate has now given its authority for asserting that the loan of \$300,000 to the State would make possible arrangements for constructing the entire twenty-nine miles of road from Clark to Bath, from Bourbon to Menefee, as part of the State Primary Road System, that the Projects on which they are located will be completed under five years, at which time the money will be repaid by the State.

Not one dollar of the bonds need be issued until it is confirmed that such an arrangement can be made. A contract covering each separate loan for the two roads will amply guarantee repayment of the money.

A number of leading citizens of the County have requested that the Fiscal Court meet with them, and present reasons, if reasons there be, why the Bond Issue should not be authorized, as suggested by the Fiscal Court in its "Statement" of April 12. It has been requested that the meeting be held not later than Wednesday of next week.

The communications addressed to

the Fiscal Court follow:

The the Honorable Fiscal Court of Montgomery County,
E. W. Senff, County Judge.
A. S. Hart, Commissioner.
Dan Welch, Commissioner.
R. G. Kern, Commissioner.

Dear Sirs—The undersigned, having understood from the "Statement of Facts about Montgomery County's Turnpike Situation," issued by your Honorable Court as of April 12, 1920, that a bond issue would provide relief for what the said "Statement" characterized as a pressing and vital question and one which cannot be postponed for long; and

Inasmuch as the State Highway Commissioner and Engineer, the author of Kentucky's new road law, as well as being the official in charge of letting contracts for road construction all over Kentucky, inasmuch

As the said State Highway Commissioner has declared that the roads in Montgomery County, from the Clark to the Bath County line, and from the Bourbon to the Menefee County line can be constructed as a permanent type highway for \$25,000 a mile, and that the Projects on which these roads are located will be completed within five years,

At which time the repayment of the loan by the State would be due, and

Inasmuch as it has been set forth that separate contracts can be entered into with the State of Kentucky by the County of Montgomery, guaranteeing the repayment of this money to the County on the completion of each of the said Projects,

The Undersigned respectfully request of the Honorable Fiscal Court that a meeting with the Undersigned be arranged at which it will be in order to present reasons why this course should not be pursued if reasons there be,

To the end that if such reasons are good and sufficient we may as good citizens all join in opposing the bond issue; and

To the end that if the facts are as set forth and Montgomery County can obtain the construction of these principal highways by the State on the loan of \$300,000,

With a CONTRACT Guaranteeing the repayment of the loan by the State,

Thus giving to Montgomery County in the language used by your Honorable Court in the "Statement" above referred to, "the numerous benefits that go with a permanently improved highway;"

And relieving the County from any further expense for the further upkeep of these roads, as provided by the new Kentucky Road Law; and

Thus making available, as stated in the language of your Honorable Court, the entire proceeds of the present 25-cent road tax for the "Better Maintenance and Improvement of the other pikes and dirt roads" of the County—

To the end if these are the facts that the proposed Bond Issue may receive the support of all public spirited citizens:

(Signed)
W. F. Horton, Hughes Atchison, G. H. Strother, J. W. William, T. J. Bigstaff, H. G. Hoffman, L. Ed. Griggs, S. M. Newmeyer, A. B. Oldham, C. B. Patterson, G. D. Sullivan, B. G. Land, I. F. Tabb, John A. Judy, J. O. Greene, J. R. Magowan, J. P. Highland, C. C. Chennault.

Accompanying the above communication was a letter asking that the meeting be arranged for not later than next Wednesday and setting forth that representatives of the Press had been invited to attend.

Alumni Banquet Largely Attended

The 1920 Alumni Banquet held at Ringo's Hall last evening was the most largely attended and one of the most successful in the history of the association. The banquet rooms were artistically decorated for the occasion in the colors green and white, a committee from the History Club having charge of this feature. Mrs. Emilee Hibler Reid, at the piano and Miss Christine Ramey, violinist, assisted by Miss Florence Shirley, gave a lovely musical program that was greatly enjoyed.

After the "enters," which were most delicious and faultlessly served, a business meeting was held, presided over by Mrs. M. C. Ayres and officers for the coming year were elected as follows: President, Stewart C. Sharp; vice president, Mrs. James Nesbitt; secretary and treasurer, Lewis A. Judy.

At the suggestion of Mrs. Ben R. Turner a dramatic society will be organized in the association and Mrs. Turner, Mrs. Joe Brown and Miss Emma Cooper were named as a committee on arrangements, the purpose of this society being to put on one-act plays at the association meets, etc. Delightful features of the evening were a reading by Miss Emma Cooper and a vocal solo by Miss Mattie Judy Botts. The class of '18 had charge of the entertainment and was under the direction of the class president, Miss Loretta Kerns. Two short plays were presented "Wild Nell" by the class of '18, and "An Eskimo Tragedy" by the class of '20. A clever dialogue by Miss Margaret Nesbitt and Ben R. Turner, Jr., was one of the "hits" of the evening. Impromptu speeches were made by Hon. C. D. Grubbs, Supt. Babb, Prof. Cox, R. P. Winn, L. A. Judy, Smiley Davis and the evening's entertainment was concluded by the reading by Secretary Sharp of a letter from former Superintendent Hopper as follows:

Just a few lines to request that you convey to the members of the Alumni Association heartiest greetings and best wishes for a most successful and enjoyable meeting.

I am wondering which one of the "stuntists" will be the "hit" of the evening, who the skirt dancer, who the tight-rope walker and what kind of jokes Mr. Chiles will pull off. No doubt the members will be delighted with the presence of ex-president Lewey Judy, who always does so much to INSURE the success of a gathering of that sort.

At the hour in which you are assembled for the annual feast, I shall silently and alone drink to the health, long life and prosperity of the Mt. Sterling High School Alumni Association.

Having been with this organization at its birth and on through its infancy I shall continue to watch its growth and activities with the deepest interest.

Yours very truly,
W. O. HOPPER.

Faces Repaired While You Wait

Among my letters of late are several from women who ask if there are any reliable dermatologists where facial blemishes can be corrected.

There are. But two-thirds of those who think they need the attention of a dermatologist can greatly improve their own appearance by using simple external measures associated with proper hygiene. Diet and method of living must be looked into. There must be no foods that are heating, no fresh pies, bread, candy, nor meat two or three times a day. Plain food, with plenty of fruit and vegetables are essential. There must be out-door exercise and regular hours of sleep and the skin of the entire body should be thoroughly cleansed at least several times a week, the warm bath to be followed by a moderately cold sponging and vigorous drying. If, however, the condition of the skin is the result of impoverished blood or some internal derangement, the best recourse is to see a physician.

Anyone afflicted with pimples or acne should not try massage. Gentle treatment and soothing, sulphur ointments are recommended.

The majority of inquiries for dermatologists labor under a misapprehension. What they really want is information regarding plastic, or as it is sometimes called, cosmetic surgery. This is a part of beauty culture, but it comes within the province of only the licensed surgeon. Much has been written and published upon this interesting feature of modern surgery. Personally I have never in-

vestigated it, having had no occasion to undergo reconstruction.

Modern methods of transit are coming more and more to be claimed as "extra hazardous." One never knows how soon it may be necessary to get a new nose, or have an ear stitched into place or a dimple sewed on. I believe in preparedness. If the time ever comes when it is necessary for me to be repaired, facially, I shall not linger on my way to the beauty reconstruction hospital, nor shall I fear to place myself under the skilled hands of the modern beauty surgeons. There are many who are wonderfully skilled in their profession.

Did you know that it is a comparatively simple matter to improve a par nose, that flaring nostrils, a drooping septum or too much flesh at the end of the nose can be remedied in such manner that no scar is left, that little pain is suffered nor much inconvenience experienced in the way of temporary absence from usual duties? A nose with a prominent hump can also be improved by the removal of surplus bone or cartilage. Noses are considered especially easy to remodel.

Ears, too, can be improved. They need not flap in the breeze if you don't like them that way. By removing just a wee bit of the cartilage at the back of the ears they can be fastened back with a bandage for a few days, after which they will be as modest and retiring as anyone could wish.

Work about the mouth is considered more difficult. It requires great care and patience, but any such deformity as a hare-lip, for instance, should be operated on and can be overcome at almost any time, especially in childhood. About three years is said to be the best age for such an operation. It will heal quicker then and be entirely obliterated within a short time.

Several women have asked me about the development of dimples. They want to buy a few. Frankly, I

advise everyone not to attempt to create dimples. The price is too great. That is, they will cost you, in regret, far more than the pleasure you will derive from the temporary gratification of your pride in their possession. The reason is simple. Nobody desires, nor wants to wear, perpetually, a smile that will not come off.

The beauty of a natural dimple is that it appears, involuntarily and spontaneously, when the face lights up with pleasure. It does not intrude itself when the face is sad. Any woman with a made-while-you-wait dimple would appear to be smiling happily while she stood by the death-bed of her nearest and dearest relative. There is a time and place for all things. The natural dimple knows its place. It is a mark of joy. When trouble comes—that is the time for disappearing. The artificial dimple would remain, like patience on a monument, "smiling at grief."

Sunken and sagging cheeks and mouth muscles are best helped by massage. A good tissue-builder like cocoa-butter should be used and the cheeks pushed upward with circular movements. If you do not understand the proper movements to use in facial massage you can easily get the idea from having your face massaged once or twice by a skilled masseuse, after which you can treat your own face yourself. Drooping corners of the mouth are treated in the same manner and can be best helped by cultivating a smile.

Massage, however, must not be depended upon alone. Physical faults that tend to lower the vitality of the body must be corrected. There must be outdoor exercise, physical culture and proper and regular eating. Any good beauty specialist will advise against the use of cosmetics. Eventually they ruin the texture of the skin and make even a fine-featured face look coarse.

As to superfluous hair there are a variety of methods for its removal, but the only sure way and one which is not only harmless, but beneficial, is by the use of electricity.

All so-called depilatories effect only a temporary removal of the growth. Some women may be shocked when I say that a great many more women than they think are actually using razors, the same as men. Electrolysis, however, now makes this unnecessary for those women who live in cities. There is a book called "Beauty Culture" that explains this treatment very thoroughly.

It may be a sudden change of subject, but before I close this article I want to answer the queries of a number of readers regarding snobbery. It can be prevented. Just the sweet cream from milk or a prepared cold cream without wax, rubbed on the skin before going into the sun is the best, possible safeguard. Over this a cooling face powder should be dusted. The brunette powders are best for this purpose and a red or blue veil should be worn. These colors will counteract the sun's rays. For the removal of summer freckles a simple mixture of peroxide and ammonia can be procured from any druggist. It is only necessary to use equal quantities of each ingredient in preparing the mixture. Instead of ammonia some people prefer witch hazel. Others use lemon juice in the same proportion. For freckles that are of long standing a more severe remedy is necessary. As this is apt to be poisonous it should not be resorted to except under the direction of a physician.

WHISKEY TAX INVALID—BUT ROAD WORK GOES ON

By unanimous opinion of three Federal Judges, the Vance Act, imposing a tax of 50 cents a gallon on whiskey stored in bonded warehouses in Kentucky, Tuesday, was declared unconstitutional.

In spite of the fact that revenue from the tax was destined for road maintenance, plans of the State Highway system will not be curtailed by the decision. Eugene Stuart, secretary of the Louisville Automobile Club, declared yesterday, inasmuch as this source of revenue is one of the smallest of the highway department.

"NERO FIDDLER WHILE ROME BURNED." WHO IS IT THAT IS FIDDLING WHILE THE PEOPLE ARE SUFFERING FOR GOOD ROADS?

Judge H. Clay McKee has filed his petition with the Secretary of State asking that his name be placed on the ballot as a Republican candidate to represent the Ninth Congressional District. We repeat what we have said before, if this district is to be represented in Congress by a Republican we do not know a man more preferable to the masses than our distinguished Judge H. Clay McKee.

"REAL" PARTISANSHIP

It is doubtful if the history of our National government gives an instance of more shameless partisanship than that exhibited by the majority on the House Ways and Means Committee, which recently excluded the Democratic members from all part in its conferences. When the Soldier Bonus Bill was drafted no Democrat on the committee was permitted to know what was in the bill until after it was reported out, when, notwithstanding it ought to have been dealt with as a broad, patriotic measure, it was ordered put through the House as a strictly Republican enterprise. This, of course, is oligarchy of the worst sort. When the minority is not alleged to be present at the drafting of an appropriation bill, to say nothing of having a voice in its preparation, and the whole people must contribute to the revenues, it is taxation without representation, which is the first rudiment of tyranny. Democratic and Republican soldiers fought side by side in the war and fell side by side on the battlefield and their representatives should sit side by side and speak jointly in providing the honorarium for the men who bore the burden and the heat of the day.

Shades of George Washington, Thomas Jefferson, Andrew Jackson, Abraham Lincoln and Grover Cleveland! The Chicago city council has granted permission for the erection of a skyscraper to a height of 200 feet. A restriction to 200 feet had been enforced for nine years, but the insane or infernal progressives of Chicago insisted that a rule made nine years ago was not binding on the Chicago men or builders of today. One by one our precious liberties are sandbagged by those who refuse to stand still. Thomas Jefferson never saw a skyscraper. Skyscrapers were unknown in the days of Abraham Lincoln. Isn't it a crime to build them? Isn't it an insult to the builders of a hundred years ago? Why Good Roads, our forefathers didn't enjoy them?

Sick Tobacco Beds

The College of Agriculture, Lexington, Ky., has been receiving quite a number of diseased tobacco plants in the last few days. Some of the tobacco growers thought the reason for the plants wilting and dying was due to the cold, wet spring. However, investigation shows that in a great many instances this trouble of tobacco plants was brought about by the disease commonly known as root-rot. Since tobacco has always been comparatively free from disease this trouble is becoming alarming in some sections where in instances whole beds have been destroyed in less than a week's time. In order to prepare for next season it is going to be necessary for the growers to handle their plant beds according to improved methods as to sterilization, and the kind of seed sown in order to expect to have good healthy plants to transplant in the field. Tobacco growers are urged to co-operate with the College of Agriculture in this matter. If you are having trouble this season and will get in communication with the College of Agriculture they will be glad to help you in any possible way.

Are Montgomery Voters Going to Stand for This?

And still there has been no move to dissolve the restraining order under which the voters of Montgomery are denied the right of having a vote on the proposed bond issue.

The reason set forth in the petition praying for this injunction is that the petition asking that an election be called did not specify macadam. Does anyone believe for a moment that the opponents of the bond issue intend to be understood as seriously contending that the proposed new construction be of macadam, a type of construction condemned by the Fiscal Court as useless and a waste of money. Moreover, the construction will be wholly under the direction of the State, and of course the State will not undertake to construct permanent type of roads with macadam.

Most opponents of the bond issue concede that it will carry when it gets to a vote.

Again the question is asked, what potent influence is it that thus denies the people the right of petition and opportunity to say whether or not they shall have the bond issue.

Three weeks ago the promise was made to The Advocate that immediate steps would be taken to dissolve the restraining order. Why has this not been done?

Are the people of Montgomery going to stand for this?

PRODUCE REVIEW

There is an active demand for fresh poultry and although the supply is larger, prices show but little change.

The supply of eggs during the week has been sufficient for current and storage requirements and prices are ruling lower than a week ago.

There has been a reasonable increase in the amount of cream delivered to creameries this week, but a larger supply than necessary for current requirements and butter has not generally been of satisfactory quality for storage. It is expected, however, that there will be full-grass butter during the first week of June. Prices are ruling lower than they were the previous week, due to the larger receipts, and are also affected to some extent by the importations of foreign butter.

WHAT NEXT?

This was the subject of the pleasing address delivered to the graduating class of the Mt. Sterling High School in the school chapel on Tuesday evening by Rev. J. L. Clark. A large and appreciative audience was present. The speaker congratulated the class on their attainments and impressed the thought that education well applied filled many wants of the day. The application as made by the speaker portrayed master minds tutored and trained so that the perplexing questions of the period were discussed and solved correctly. Only trained men and women attain heights of usefulness and inspired to go into broader fields with the book as their guide he pronounced His blessings on each and every one. It was a very fine address and was appreciated by all who heard the distinguished preacher.

Seriously speaking, one of the six best sellers is the "Singing of Sims." It is a most important contribution to the literature of the day, and there is a grippy and ever compelling foreword by the President of the United States.

MAU'S SHOWS

Entrance to this world wonder show is on Maysville street, near the depot. Just follow the crowd and you will get there. You have an hour of solid enjoyment, but what is better, a lesson, a moral pointing to the development of mind and heart goes with each branch of this show. The minstrel show is a drawing feature. Tight-fitting clothing at this merry-making entertainment are useless for you hush and laugh, and the boys get busy between acts gathering the missing buttons. Seriously, this is a good place for the man or woman, weary from the day's toils to go for an hour of solid enjoyment and recreation. The entertainment begins promptly at 7:30 o'clock P. M. Return of Ches Davis to This City Under Canvas

One of the cleverest of the pretty girls to appear in the Ches Davis Revue, coming to Mt. Sterling next week is Miss Mae Kennis, singer, dancer and actress of more than usual charm.

The little actress is only four feet, eleven inches in height, but from her head to her feet she is adorable. Miss Kennis was born in the highlands of Scotland and came to this country when a small girl. She first appeared on the stage as a dancer and is now featured in songs and vaudeville sketches.

She does not imitate any other artist, but has a way of her own—impish, demure, frivolous, as the mood appeals to her.

Other entertainers appearing in the revue are Roy Butler and Mark Moran, comedians of rare ability. The Ches Davis Revue consists of nothing sensible, the manager's idea being to "get a laugh, get it quick and get it often," to use his expression.

As laugh getters, Messrs. Moran and Butler are highly successful. They are featured in Hebrew, Irish, French and other impersonations. Mr. Moran works as a hobo character and has been classed as equal to that of the late Nat Wills by a Mississippi dramatic critic.

Aside from his comedy work Mr. Butler's dancing will attract attention. He is programmed to appear in an exhibition waltz with Miss Alice Ritchie and in many eccentric dances.

Mr. Davis himself appears in burnt cork and is said to be superior in negro characterizations to many of the nationally famous minstrel men.

The biggest popular priced show in America. Come out Monday night and enjoy a good hearty laugh. Show starts at 8:15 P. M.

A New School Law

Under a law enacted by the last legislature every county in Kentucky must have a school attendance officer whose sole duty it is to see that children attend school, not 3 days in a week, as heretofore, but every day of every term until the age of 16 or until the common school course is completed. Violations of this law are to be punished by a fine or imprisonment or both. Such a law has teeth and under its enforcement children will be compelled to attend school. In nearly all counties the Attendance Officers have already been appointed, but Montgomery County has not yet made her selection. The law requires the appointment of this officer before July 1st, 1920.

GRUBBS TO BE GIANT

Tom Grubbs, the lengthy right-hander of the University of Kentucky baseball team, will appear in the uniform of the New York Giants soon. Grubbs has received a letter from John J. McGraw, manager of the New York team, asking him to report at Brooklyn on June 7. The terms will be decided on at that time. Grubbs will be offered a regular contract, the letter states.

Grubbs was one of Kentucky's mainstay slab artists this season and his pitching ability attracted considerable attention. He won all but three games pitched out of four years at the college.

Tom Grubbs is a senior in the college of law and recently took the State bar examination. Arrangements have been made whereby he will receive his diploma without attending commencement, which will be held on June 9.—Lexington Leader.

Tom Grubbs is a son of Mr. and Mrs. C. D. Grubbs, of this city, and has a host of friends here who will watch his baseball career with much interest. He is the first local boy to get a tryout in one of the major leagues in a long number of years, and it is being freely predicted that he will "make good."

James M. Long, of No. 425 North Second street, Ironton, Ohio, who is employed by the Union Iron and Steel Co., makes the following statement of the wonderful good accomplished by the Reese Formula R-11 in his case.

"I have been doctoring for over six years for stomach trouble, six doctors of Ironton and four in Portsmouth did not help me a bit. I have taken all sorts of remedies without results until I began taking the Reese

Formula R-11. I have taken but one bottle, but my stomach does not trouble me at all, and I feel stronger in every respect. I am going to take another bottle although I feel that I am entirely well now. I most heartily recommend this remedy as it has by relieving me done something I did not think possible."

THEODORE ROOSEVELT—FATHER

(By Mrs. Percy V. Pennybaker, Ex-President General Federation of Women's Clubs.)

While many pay tribute to Theodore Roosevelt as a great American, it is also to Theodore Roosevelt the father that the heart of America now turns.

The story of those happy years which he spent with his family in the White House cannot fail to impress us with the sacredness of the home life, the joy of the family bond nor can anyone measure the effect of such an example upon the rank and file of Americans.

Colonel Roosevelt understood as few men do the privileges and responsibilities of fatherhood. After reading that delightful new publication, Theodore Roosevelt's Letters to his Children, one is reminded of those beautiful words of Jean Paul Richter, "Only by the union of manly energy and decision with womanly gentleness does the child rest and sail at the conflux of two streams." One marvels that this busy man found time to take such a part in the life of his children. No matter how full was his day of engagements with the highest dignitaries of State. Colonel Roosevelt always found time to be the companion of his children, to read or play with them, to join in their outdoor sports or when he was separated from them to write very frequently. His understanding of child life was remarkable and his sympathy unflinching.

Colonel Roosevelt made practical that famous admonition of Froebel, "Come, let us live with our children." Often the great upper rooms of the White House were alive with pillow-fights and with those bed-time romps which must have left a lasting impression upon the happy group of young children. But the characteristic which was most touching in his family relationship was his ability to continually remind his children that the spiritual values in life are those which are really worth while.

We all know that the greatest safeguard for a republic is the founding of happy homes. There is no greater danger threatening the American home today than the absence of the father as an active and determining force in shaping the character and the development of his children. How often we hear some of our best men remark complacently, "I leave the training of my children entirely to

LEXINGTON, KY.

We respectfully submit for your careful consideration an opportunity for an investment in H. H. PIEPER CO., 5, 10 and 25c CHAIN STORES.

This Company began operation with one store in Mt. Sterling, Ky., in October, 1918, and one year later added the Cynthiana Store.

Pieper's slogan is more stores, and in view of this fact the Company has closed a contract for a building which is now under construction in Hazard, Kentucky.

This store will be opened immediately upon completion of the building, which will be some time in July. Our next and biggest move will be Lexington, Ky., our home city. To expand and open more stores the Company offers a limited amount of common stock at \$60.00 per share.

We attach stock subscription blank, which, kindly fill in for the amount of stock you may desire to take out, and forward with first payment to the Lexington office.

SUBSCRIPTION BLANK

my wife. She does it all." We hear much in verse and story of the influence of good mothers and this is well, but we need to hear just as much of the influence of good fathers, such fathers as Colonel Roosevelt. Some of us fathers know only too well that, try as hard as a woman may, she cannot be both father and mother to her children.

Thousands of fathers face crises in the lives of their sons and find themselves powerless to influence them though these devoted parents would willingly give a right arm, if necessary, to possess this very power. They lack influence because they did not give of their love, sympathy and companionship when their children were little and confiding.

Many men feel that they express their devotion to their families when they toil all day to supply comforts and luxuries for those they love, but that they have no time to give their children. The American man is one of the most unselfish of human beings, and the American woman appreciates this fact. He gives freely to his wife and children of all that he has except himself and his time, and these are the two gifts which his family most needs.

If tired or busy fathers would give but a few minutes each day to their children, would enter into real fellowship with them, a bond of sympathy would be established. Fathers would find real rest and relaxation in the companionship of their happy, affectionate little ones and misunderstandings and estrangements between father and child in later years would become less frequent.

If there is no kindergarten in your town, petition your school board for one.

Now is the time to work so that your child may have the advantages of kindergarten training in the fall.

The National Kindergarten Association, 8 West 40th Street, New York City, will furnish petition blanks and leaflets upon request.

NEW BLOOD FOR FULTON CO.

Through the efforts of the county agent working in co-operation with the banks in Fulton County, five pure bred Holstein bulls valued at \$450 apiece have been imported into the county in the last sixty days. The farmers appreciating this effort on the part of the banks, have agreed to further this good work by ordering two carloads of Holstein cows.

GOOD ROADS TALK

The majority of people say the commissioners themselves suggested the bond issue.

If the commissioners didn't suggest a bond issue in their signed statement, what was the purpose of that pronouncement?

If you're right, show us, so we can get right, say the Good Roads people. But you got to show us.

A Good Road to West Liberty means more business to all of Montgomery county.

More than three quarters of the cost of constructing the Good Roads will be spent in the county for wages, etc. It amounts to hundreds of thousands of dollars.

The unkindest cut of all was to tell the railroads, the city property owners, the manufacturers, the pub-

lic utility companies, the banks, and so on that they wouldn't have to pay the bond issue tax, when the conspirators of course knew that all classes of tangible property share the burden alike.

Ever Get
Bilious?
Try This

Take NR at once. Get digestive and eliminative organs working in harmony and relief is immediate. Never causes griping.

NR Tonight—Tomorrow Feel Right

When your liver goes on strike and you feel a sick headache and bilious spell coming on, instead of prodding your liver with dangerous calomel and lashing your bowels with strong, irritating purgatives, get out your box of mild, gentle-acting NR Tablets and take one right off.

Relief will come just as quickly and with it genuine, lasting benefit.

There will be no griping, gnawing pains or doubling stomach ache.

Nature's Remedy (NR Tablets) work promptly and thoroughly, but the action is gentle, mild and soothing.

Relief comes through the action of Nature's Remedy on not only the liver, but on the whole digestive and eliminative system,—the stomach, the bowels and even on the kidneys.

Stored up accumulations of waste and body poisons that have been clogging the system are completely cleared out, the over-worked stomach is strengthened and the interrupted work of digestion and assimilation is resumed.

The inactive liver goes to work with new vigor, the bowels are unburdened, the headache leaves, that dull, "dopey," want-to-crawl-down-a-hole feeling disappears, energy

"pep" and appetite return and you find yourself entirely, completely relieved.

There is no better proof of the great value of Nature's Remedy for biliousness and constipation than the fact that more than one million NR Tablets are used every day—more than five million boxes sold every year.

If you've not already done so, get a 25c box of Nature's Remedy (NR Tablets) and take the first tablet tonight.

If your constipation is stubborn or persistent, continue to take one each night for a week or so.

Then note how you feel. Your bowels will be as regular as clock work, and you'll find yourself in better shape physically, mentally, every way than you've been in many a day.

After that you need not take medicine every day. An occasional NR Tablet to keep your system in good condition will be sufficient, and you can always feel your best. Remember it is easier and cheaper to keep well than to get well. Just try it.

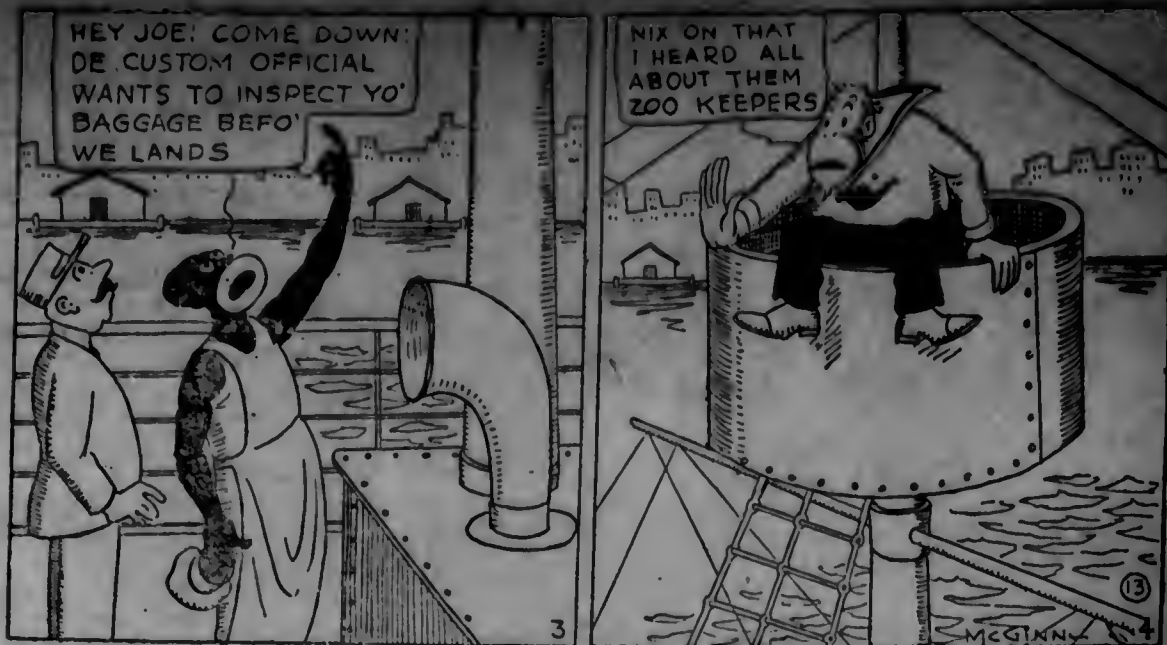

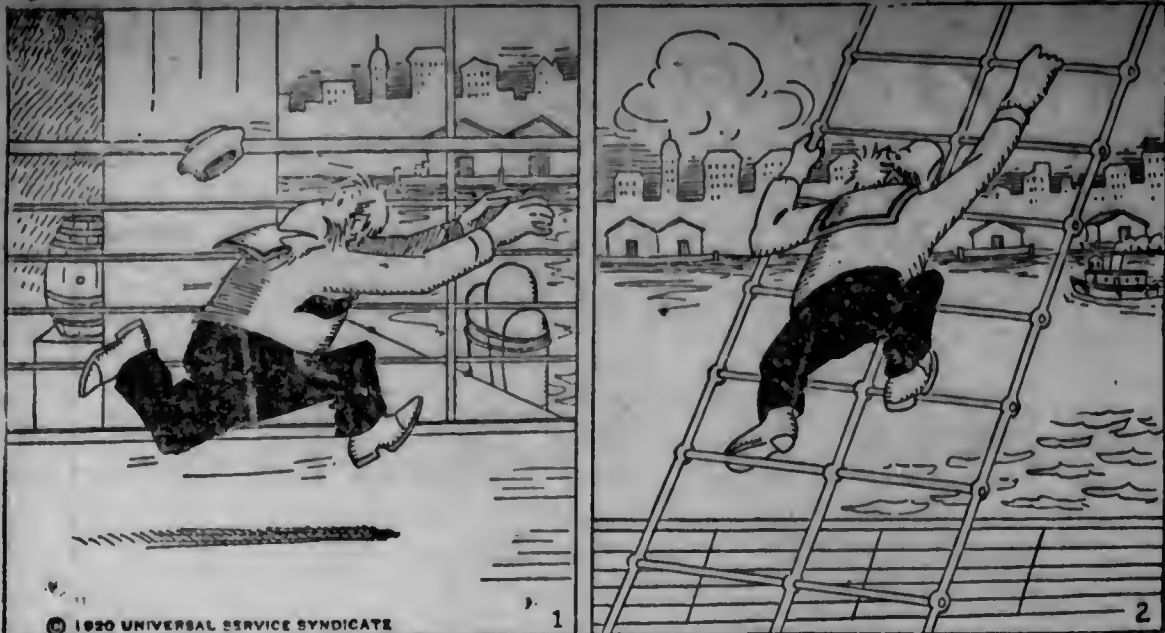

Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.
